Ms. Miller, I have yet again not heard from you regarding important matters. I will now clarify
things for you.
Special Agent Coder's FD-302 is a false and misleading investigative record. Applicant is defamed when the FD-302 is transmitted and when the false statements
become the basis for the curbstone legal opinion and the suitability determination.
An unrealized 30 year Federal career seems like it would be worth a lot of money, not to mention punitive damages and emotional distress.
I would like to speak with your boss. A settlement agreement of my obvious libel
claim and the MSPB action would be one of the subjects of discussion.
I used to work for the firm that handled the case, and while that one , this one is a winner and has the convenience of jurisdiction probably being found in .
I thank your office for its contribution in handing me a libel claim worth perhaps \$10 million, as that should help my financial situation assuming the personnel
involved are not judgment proof. I would much rather attain the office of Special Agent and realize my dream than pursue FBI employees for the next two years in a
libel case. I await your response.
Best,

[Fwd: Re: v. Dept. of Justice - le... 06, 2009 4:31 AM To: Miller, Patricia A.(HQ)(FBI) Subject: [v. Dept. of Justice - letter] Ms. Miller, I have given more thought to this complex problem and the manner in which your office's legal opinion could have been obtained. Your office is not equipped to deal with this problem, and I am turning to those who are. Don't worry, it's not OPR. I would be happy to answer reasonable written inquiries if they are to my benefit rather than yours. I would appreciate not being called, as I believe I demonstrate in my MSPB action what happens when people try to say I said different things than I did, which I can prove in a fashion that requires the FBI to decide which of its personnel to believe rather than whether it should believe me. Thank you for your office's assistance in also helping me prove other aspects of my case. Best,
